ABOUT US

Prashil Exports Pvt. Ltd.

We started with a simple idea: Indian farmers grow outstanding produce, but overseas buyers need someone on the ground who speaks both languages — farm gate and freight forwarder. Based in Indore, we handle sourcing, paperwork and shipment so you can focus on selling.

COUNTRIES WE EXPORT TO

United Arab Emirates · Saudi Arabia · United States · United Kingdom · Germany · Canada · Singapore · Australia

Direct From Origin

Sourced straight from farms and partner mills near Indore — no extra layer of trading margin.

One Point of Contact

A single Indore-based team manages sourcing, QC, packing and shipping documents end to end.

Flexible Order Sizes

From a few trial pallets to full container loads, with repeat-order pricing on request.

Have a product, quantity and destination port in mind? Our team can put together a quote within one business day.

OUR EDGE

Why Buyers Come Back

Six promises we keep on every order — from the first sample to the final sailing date.

01

True to Sample

What we show in the sample is what leaves the factory. Admixture, moisture and colour are checked before any lot gets a number.

02

Fair Farm Pricing

Fewer middlemen means a clearer quote. We buy closer to the farm and pass the saving into your FOB or CIF price.

03

Your Brand, Packed

Your brand on the bag, our team behind it — from 250 g shelf packs to 50 kg industrial sacks, barcodes included.

04

Year-Round Stock

Harvests have seasons; your production line might not. We stock key lines so a dry month never becomes your problem.

05

Lab Certified

Third-party lab tests, aflatoxin checks where applicable, and container photos shared before the seal goes on.

06

Stress-Free Shipping

Phytosanitary certificates, COO, fumigation and booking — coordinated from road to port, with updates as the vessel sails.

New to Prashil Exports?

Start with a trial lot — a few pallets, not a full container — and see the quality land before you commit.

OUR PROCESS

Structured Export Workflow

A defined path from confirmed order to port dispatch — with quality verification and documentation at every stage.

01

Origin Sourcing

Procurement from approved farms and partner mills, with lots evaluated against agreed specifications before purchase.

02

Cleaning & Grading

Mechanical cleaning, sorting and grading to remove impurities and ensure uniform size, colour and moisture.

03

Quality Assurance

In-house quality control followed by third-party lab testing where required. Non-conforming lots are rejected, not regraded.

04

Packaging & Labelling

Export-ready packing in PP bags, cartons or retail formats — labelled per destination requirements.

05

Containerisation & Dispatch

Secure stuffing with documented seal numbers, followed by same-day release of shipping documents.

06

Post-Shipment Support

Continued coordination through port arrival, with documentation support for customs clearance and forwarders.

Export Compliance, Handled

Phytosanitary certificates, agreed moisture parameters and FSSAI-aligned handling — with buyer audit support on request.

CATEGORY 01 / 05

Foxnut & Makhana

Hand-graded lotus seed pops from Indian wetlands

Light, crunchy fox nuts cleaned, tested and packed for snack makers, wholesalers and health-food brands overseas. Available in raw form for roasting, or ready-flavoured for direct-to-shelf retail.

Raw Foxnut

Naturally light, crunchy makhana hand-graded for uniform size and low moisture — ideal for roasting brands and bulk importers.

Flavoured Foxnut

Roasted foxnuts seasoned with signature flavours — a healthy, export-ready snack packed for retail shelves.

Grade	Moisture	Colour	Shelf Life
4–8 mm & 8mm+	Below 5.5%	Natural White	12 Months

Packaging
250g–1kg retail packs, 5–25kg food-service bags, 50kg export sacks · custom branding available

MOQ
1 x 20ft/40ft container · trial pallets available on select lines

CATEGORY 02 / 05

Green Cardamom

Premium bold pods, packed to preserve aroma

Bold, aromatic green cardamom — hand-picked lots, moisture-checked and packed to preserve pod quality from our Indore office to ports worldwide. Sorted for uniform size and colour to keep every batch consistent.

Green Cardamom

Bold, aromatic green cardamom pods sorted for uniform size and colour, moisture-checked to preserve natural fragrance. Packed to lock in essential oils from harvest through to arrival at destination port.

Bold Green (8mm+)
Uniform, plump pods with strong natural aroma.

Moisture-Checked
Tested before packing to preserve shelf life.

Hand-Picked Lots
Sorted by hand for colour and size consistency.

Aroma-Locked Pack
Sealed promptly after grading to retain oils.

Hand-Picked Green Pods
Sorted for uniform size, colour and aroma.

Bold, Plump Pods
Packed promptly to lock in natural oils.

Packaging
250g–1kg retail packs, 5–25kg food-service bags, 50kg export sacks · custom branding available

MOQ
1 x 20ft/40ft container · trial pallets available on select lines

CATEGORY 03 / 05

Indian Spices

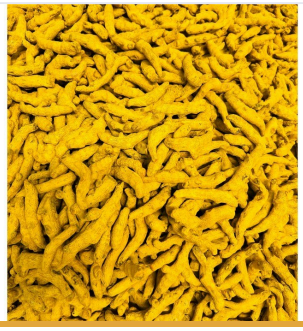

Whole spices, machine-cleaned and export-graded

Red chilli, turmeric, black pepper, cloves and cinnamon — machine-cleaned, metal-detected where required, and packed to keep volatile oils and natural aroma intact.

Red Chilli

Deep-red, high-pungency chillies cleaned and graded for colour, heat and export-grade purity.

Turmeric

High-curcumin turmeric fingers and powder with vibrant colour, sourced from trusted growing belts.

Black Pepper

Bold, full-bodied peppercorns, sun-dried and cleaned to preserve natural oils and aroma.

Cloves

Whole, hand-picked cloves with rich oil content and intense aroma, sorted for premium export grade.

Cinnamon

Fragrant cinnamon sticks and quills with a naturally sweet, warm flavour, graded for export.

Packaging
250g–1kg retail packs, 5–25kg food-service bags, 50kg export sacks · custom branding available

MOQ
1 x 20ft/40ft container · trial pallets available on select lines

CATEGORY 04 / 05

Dehydrated Products

Processed to retain flavour, colour and nutrients

Dehydrated onions, onion flakes, garlic and ginger — processed to retain flavour, colour and nutrients for the food industry and retail packing.

Dehydrated Onion

Kibbled dehydrated onion that retains natural flavour, colour and aroma for food-processing needs.

Onion Flakes

Uniformly cut onion flakes, dehydrated to lock in taste and shelf life for bulk buyers.

Dehydrated Garlic

Dehydrated minced garlic with concentrated flavour, processed for consistent taste in every batch.

Dehydrated Ginger

Finely processed ginger powder with strong pungency and aroma, packed for the food industry.

Packaging
250g–1kg retail packs, 5–25kg food-service bags, 50kg export sacks · custom branding available

MOQ
1 x 20ft/40ft container · trial pallets available on select lines

CATEGORY 05 / 05

Agro Products

Fresh from the farm, quality-checked for export

Fresh onions, garlic, ginger and green chillies — sourced directly from farms, quality-checked and exported worldwide.

Fresh Onion

Farm-fresh onions sourced directly from growers, sorted and graded for consistent size and quality.

Fresh Garlic

Premium fresh garlic bulbs, hand-sorted for size and pungency, packed for global markets.

Fresh Ginger

Fresh, fibre-rich ginger sourced at peak harvest, cleaned and packed to preserve natural aroma.

Green Chilli

Farm-fresh green chillies picked at optimal spice level, sorted and packed for export freshness.

Packaging
250g–1kg retail packs, 5–25kg food-service bags, 50kg export sacks · custom branding available

MOQ
1 x 20ft/40ft container · trial pallets available on select lines
